# Research as a Service (RaaS)

## METHODOLOGY

Online survey (C.A.W.I.) conducted via global access panels (ISO-certified, +70 markets). Population: the total population in each country with internet access, aged 16 to 69. Representative according to census data by gender, age, and region, with a large sample size of at least n=1,000 respondents (fresh sample). Surveys can be conducted regional, national, or global.
